Student Comments

Please comment on aspects of the instructor’s teaching, such as clarity of explanations and examples, handling of questions, stimulation of thinking, and respect for individuals and their differences.

1. The instructors enthusiasm for the subject was refreshing.
2. Did lots of examples, very respectful, very clear.
3. Most of the teaching involved examples, not always what to do.
4. The explanations never made much sense to me. It was just the class doing the problem, not explaining each step.
5. He is clear and knows his information. Sometimes it seems too fast with all the info and lengthy derivations can be confusing sometimes HW seem repetitive and hard with other classes.
6. Very well.
7. Been more connected w/ class. Hard to follow.
8. He was extremely clear, had several examples, notes both in class and on the web, and answered questions in a clear and concise manner.
9. Sometimes he moved very fast and I would get lost and confused.
10. He took questions and answered them without making the person who asked feel bad or stupid.
11. They were great great teacher.
12. Good use of examples and handling question.
13. He was just awesome.
14. This class was very challenging but well taught.
15. Awesome. Questions were answered, help was available, it was good.
16. He went over things well, just was a little fast and sometimes stuck to the notes a little much. More and harder examples would have been good.
17. I think Paul did a great job, I Just think with some more experience he will start to really hold the attention of the students.
18. Good teaching.
19. He answered all questions to the best of his ability and was very helpful.
20. He did an excellent job explaining and conveying the material.
21. He would always stop and make sure everyone knew what was going on.
22. The instructor teaching was very clear! Everything was well explained.
23. He seemed very organized and well prepared for his lectures and it showed in class.
24. I thought he did a good job of explaining things well and going over examples. However, he did go over a lot of things we weren’t expected to know that might have confused some people.
25. The instructor was very clear.
27. Great instructor.
28. Teaching was clear, but not very exciting. Possibly because the course material was not very exciting.

**Did the instructor aid in your understanding of this subject? Please give specific examples consistent with your response.**

1. Yes, he explained things clearly and decisively.
2. Yes, the instructor was very helpful in answering my questions about materials homework.
3. Yes, always available to help and do more examples in class.
4. I already knew most of the material from high school, but there were some good refreshers.
5. Yes & no. Somethings I had prior knowledge of and he refreshed my memory on the subjects. But new information isn’t easily understood.
6. Will come over and talk and always seems available for consultation.
7. Yes very much so.
8. Yes, wrote on board.
9. Yes, whenever I had questions he was quick to answer. I also had to schedule other times to take exams and he was very helpful in the process.
10. Yes, I could always understood the material by the time I completed the homework.
11. Yes, he was available outside of class, and was always very helpful.
12. Yes, he was available for office hours.
13. This class should be shorter, we are in class for 7 hours a week and it’s a 5 credit hour class. The recitation can be eliminated.
14. Yes, he had help sessions every week.
15. Yes, but dimensional analysis is still the devil.
16. Yes, he was very helpful.
17. I already knew most of everything taught.
18. Yes, he was very good in helping us understand the subject.
19. He helped a lot with Matlab.
20. Yes, he went over my questions that arose.
21. The TA were all exceptional.
22. He made himself very available outside of class and was really helpful during office hours.
23. He helped in my understanding by going over the examples well.
24. Yes, he taught well, especially Matlab.
25. Yes, he was very helpful with any questions I had on homework.

Please comment further on any of the items for which you were asked about in this evaluation.

1. Paul E. Anderson… You Rock!
2. Excellent.
3. Great 1st class!
4. I would have liked a textbook in which to go back to and learn from. Handwritten homework and notes made it a little more difficult to use. I did not like having tests outside of class time. I did not like that the homework was week behind classes and the tests were several weeks behind.
5. Was very helping in and out of class.
6. He let me eat ice cream in his class.
7. He was pretty awesome.
8. He was the man.
9. I was very bored b/c I already knew almost all of the material. This course should either not be required, or have two levels those who have, and those who haven’t had calculus.
